Cc: Dr Jean-Christophe Thalabard &lt;jean-christophe.thalabard@parisdescartes.fr&gt;

Dear colleague,

I am contacting you on behalf of Jean-Christophe Thalabard, chairman of the Mathematics and Digital Sciences for Biology and Health committee of the National Research Agency (in France).

As part of the ANR's 2021 generic call, we are in the process of setting up its scientific evaluation committees. We would like to benefit from your expertise as a committee member.

The evaluation process will take place in two stages. You will find below the main dates of the 2021 generic call, the provisional schedule of the scientific evaluation committees (CES) is as follows:

- February: CES1 (phase 1-evaluation of pre-proposals) in visio-conference over 3 days (4 half days) of meeting (February 15 to 17, 2021)
- June - early July: CES2 (phase 2 evaluation of full proposals) - dates not fixed at the moment.

Would you be available on the dates indicated and would you agree to participate in this committee?

I remain of course at your disposal for any further information.

I remind you that participation in this type of committee must remain confidential until the results are published. It is therefore not possible for you to discuss your potential participation in this committee with french colleagues, for example.

Looking forward to your feedback.

Best regards,

**Fabien GUILLOT, PhD**
